

Han® IP67 Docking Frame

Pushing Performance
Since 1945

Description

We are pleased to announce a new addition to the Han® portfolio, the Docking Frame IP67. These new housings are equipped with an integrated docking frame which consist of a floating plate and guiding elements that ensure a safe connection. The docking frame has been successfully tested for IP65 and IP67.

Specs

- IP65/67
- Monoblock and modular compatible
- Aluminum Die Cast
- Floating tolerance (X-Y direction +/- 1mm)
- Floating tolerance (Z direction +/- 0.75mm)
- >10,000 mating cycles
- CE Compliant
- RoHS Compliant

Markets

- Machinery
- Robotics
- Railway
- Energy

Applications

- Distribution boxes
- Controls equipment
- Robotics
- Energy storage systems
- Switchgear
- Power supplies

Feature

- IP65/67
- Modular Compatibility

Advantage

- Sealed against dust and water ingress
- Eliminates need for additional sealing process
- Wide range of options for power, signal and data use
- Off the shelf parts

Benefit

- Cost savings
- Ultimate flexibility in design
- Cost savings
