

# INTRODUCING OFF-THE-SHELF AMP CT, AMP MINI CT, AND HPI CABLE ASSEMBLIES

- Purchased as pre-configured assemblies
- Does not require the purchase of tooling to terminate
- Allows for faster prototyping

Off-the-shelf cable assemblies are a product extension of our HPI and CT product lines that allow for quick prototyping. The assemblies allow our customers to use AMP CT, AMP Mini CT, and HPI connectors prior to investing in tooling.

## APPLICATIONS

- IoT (Internet of Things) Applications
  - Smart locks
  - Small appliances
  - Smart lighting
  - Smart meters
  - Vending machines
  - Smart POS terminals
- Data Communications
  - Servers
  - Switches
  - Modems
- Appliances
  - Washers/Dryers
  - Air conditioners
- Automotive
  - Control units
  - Infotainment systems
- Consumer devices
  - Tablets
  - Speakers
  - Laptops
  - HDTVs
  - Gaming equipment
- Medical
  - Patient monitoring systems
- Industrial
  - Security systems
  - Surveillance camerasSpeakers
  - Factory automation
  - HVAC systems
- Lighting
  - LED lighting

## KEY BENEFITS

- Purchased as pre-configured assemblies
- Does not require the purchase of tooling to terminate cables
- Allows for faster prototyping
